

leading logistics provider uses Liquid Management Solutions to improve CO₂, safety & fuel efficiency in one.

Nijman Zeetank International Logistic Group

Nijman Zeetank is a well-established European distribution business, operating over seventy 44-tonne tractor units and specialised trailers to service the UK distribution needs for Pilkington, one of the world's largest manufacturers of glass and glazing products.

Nijman Zeetank operates from one central distribution hub in St. Helens, Merseyside. From this location Nijman Zeetank services Pilkington's 3 UK operational plants providing all first tier supply chain transport and distribution.

Annual Fuel Consumption	3,936,000 litres (865,799 gallons)
Annual CO₂ Production	10,234 tonnes

What do you feel has been the most valuable part of the safe and fuel-efficient driver development course?

"We have undergone defensive driver training and driver assessor training, but this course added a totally unexpected but highly useful dimension. It reiterated how saving fuel can save lives as well as the environment. The truck manufacturers only scratch the surface about how to get the best out of the truck. This now gives us the tools to take our internal driver development programme to the next stage."

Bill Owen, Operations Manager, Nijman Zeetank.

"The safety aspect and the attention to detail was an invaluable part of the course. The training given was of extremely high standard, both in the way it was presented and its content. I can honestly say that I have learned a great deal, which I can now introduce to the business."

Jimmy Mc Keegan, Driver Trainer, Nijman Zeetank.

"Nijman Zeetank's participation in developing a fuel saving programme will generate significant cost savings, whilst enhancing our image as an environmentally conscious company. Liquid Management Solutions has already commenced a programme to help manage the drivers and address the root cause of high fuel consumption, namely the driver's right foot!"

Clive Riggall, Managing Director, Nijman Zeetank.
